## Derivation of Leisure Activities

Holland codes were assigned to leisure activities and occupations corresponding to the leisure activities. A list of 100 activities was used to derive the codes. The codes were generated by inferring Holland codes from occupations on occupation codes of this study.

**SAMPLE**

relationships (that is, the relationship between activities, it is especially important to be appealing. Those who use this study to identify activities that match their Holland code, but not those of their Holland code and the activities in the alpha-
